M.ALI KASHIF

BS Cyber Security · AI Enthusiast · Front-End Developer

PROFESSIONAL SUMMARY

A tenacious 5th-semester BS Cyber Security student at Muslim Youth University with a unique blend of front-end design and AI prompt engineering. Passionate about building intuitive user interfaces while understanding the security implications behind them. Seeking internship opportunities to bridge creative development with futuristic web designs and cybersecurity practices.

EDUCATION

Matriculation (SSC)

American Lycetuff — Islamabad, Pakistan

2021 · Biology

Intermediate (ICS)

Superior College — Islamabad, Pakistan

2021 – 2023 · Computer Science

BS Cyber Security

Muslim Youth University — Islamabad, Pakistan

2024 – 2028 · 5th Semester

EXPERIENCE & INVOLVEMENT

> Freelance Front-End Assistant

2025 – Present

Self-Employed

- Built responsive landing pages via AI-assisted development, cutting design time by 60%.
- Ensured cross-browser compatibility and basic accessibility standards for all client work.

> Cyber Security Student

2024

Muslim Youth University

- Built a secure login system with password hashing and multi-factor authentication.
- Learned fundamentals of network defense and secure system administration.
- Studied encryption standards such as AES and RSA for real-world security use cases.

FEATURED PROJECTS

Jakwan International // HTML/CSS · JS · AI Prompting

Gateway to Indonesian Markets & Global Business Consultants

Phantom Vault // XML · Java · Android Studio

Military grade encrypted mobile app to store all types of documents, images, videos, texts with additional biometric lock in order to conduct maximus security on sensitive files with zero hacking risk.

Cyber-Hunk // HTML/CSS · JS · WebGL · AI Prompting

Highly futuristic armory vault for future weapon purchase.
Responsive website front-end created with advanced prompt engineering.
