PROFESSIONAL SUMMARY

BS Cyber Security student (5th semester) at Muslim Youth University with hands-on front-end development experience and AI prompt engineering skills. Builds responsive, cross-browser-compatible interfaces while studying encryption, network defense, and secure system design. Seeking internships to combine creative development with cybersecurity.

EDUCATION

BS Cyber Security <i>Muslim Youth University</i>	2024 – 2028 (Expected) Islamabad, Pakistan
5th semester; coursework in encryption (AES, RSA), network defense, and secure system administration. - Built a secure login system with password hashing and multi-factor authentication.	
Intermediate (ICS) — Computer Science <i>Superior College</i>	2021 – 2023 Islamabad, Pakistan
Matriculation (SSC) — Biology <i>American Lycetuff</i>	2021 Islamabad, Pakistan

EXPERIENCE

Freelance Front-End Developer <i>Self-Employed</i>	2025 – Present Remote
- Built responsive landing pages using AI-assisted development workflows, reducing design time by approximately 60%. - Ensured cross-browser compatibility and implemented basic accessibility standards across all client deliverables. - Collaborated directly with clients to translate design requirements into functional, mobile-first interfaces.	

PROJECTS

Daud Khan Portfolio	HTML/CSS, JavaScript, GSAP
Built a scroll-animated portfolio site for a video editor featuring a timeline services section, video carousel, and integrated booking calendar.	
Nayab Khattak Portfolio	HTML/CSS, JavaScript, GSAP
Designed a tutor portfolio site with a periodic-table-themed class grid, molecule SVG hero, scroll animations, and an enrollment form.	
Jakwan International	HTML/CSS, JavaScript, AI Prompting
Developed a responsive business website for an Indonesian markets and global consultancy firm.	
Phantom Vault	XML, Java, Android Studio
Built an encrypted mobile app for secure storage of documents, images, videos, and text with biometric authentication.	

TECHNICAL SKILLS

Front-End: HTML5, CSS3, JavaScript, Responsive Design, Figma
Languages & Tools: Python, Java (Android), Git, GitHub, Kali Linux
Cybersecurity: Network Defense, Encryption (AES/RSA), Secure Authentication
Other: AI Prompt Engineering, UI/UX Design, WebGL

CERTIFICATIONS

Introduction to Cybersecurity, Computer Networking — Cisco, 2024 | Front-End Dev — freeCodeCamp, 2025

ADDITIONAL

Soft Skills: Attention to Detail, Adaptability, Self-Directed Learning, Time Management, AI Collaboration, Client Communication
